the above recommendation. We recommend that the bill be laid upon the table, and the law remain as it is, as it has worked satisfactority.

Both reports were tabled for consideration with The Minister of Interior stated that he was prepared to give an answer to a question propounded by Rep. Thurston, as to the cost of immigration during the past biennial period. His Excellency said the information was all contained in the report of the Bureau of Immigration, prepared by the late Minister of the Interior. In 1882-4 the total amount expended for immigration was Of this the Government expended \$473,050 86 and the planters \$209,286 22. A question had been raised why there should be such a disproportion, the Government paying over twice as much as the planters. The Government paid all the passages of the woman and children and received nothing from the planters in return. In 1884-6 the total amount expended was \$542,271 39, - In of which the Government expended \$337,256 81 and the planters \$315,013 58. The last vessel which arrived, the Stirlingshire, cost altogether \$42,000, and the Government only received \$16,000 from the planters, leaving the Government \$26,000 to pay. The Amana, now in port, brought 506 immigrants. He learned from Mr. Atwater, Secretary of the Board of Immigration, that on account of this lot the Government would receive \$15,000 from the planters. The total cost was \$41,000, so that there was \$25,000 for the Government to pay. This money had to be paid by the tax payers. It had now been decided for the Government to consider this matter with the planters, so as they should bear a large share. He was happy to say that by the last mail a communication was received from His Hawaiian Majesty's Minister Resident at Tokio stating it was the desire of the Japanese Government that mmigration from that count to Hawaii be entirely He had applications from a number of agricultural laborers who wished to emigrate to these Islands. ONE BUNDRED AND POURTEENTH DAY. WEDNESDAY, Sept. 29th.

The Assembly convened a little past the hour set and after the usual preliminary business was finished attention was given to a report presented by Representative Kaunamano signed by himself and relating to the licensing of opium. The petitions were signed by 11 foreign and a number of Chinese residents. The signer found that a large quantily of opium is smuggled into the country and that the traffic is a very profitable one, and the committee have information that many of the people who signed the petitions were themselves engaged in selling and smuggling opum. The committee think it would be foolish to grant the prayer of these petitions, as a license law would give to the Government a large part of the revenue now derived from the illicit traffic. Tabled.

Representative Hayselden from the Tariff committee presented a report on the bill to amend sec-tion 12, chapter 44, of the session laws of 1882, relating to dealers' licenses, recommending the bill pass. The report was adopted. The bill read a second time, passed to engrossment, to be read a third time on the 30th nlt.

Representative Dole addressed the following question to the Minister of Interior:-"Whereas the Legislative Assembly at its last regular session, passed a resolution pro-viding that the horses and accontrements used by the body known as the Mounted Police, at that time disbanded, should be sold for the benefit of

the Hawaiian Government. "Please state the number of horses used by the Mounted Police at the time they were disbanded, the number of such horses which have been disposed of for the benefit of the Hawaiian Government, and the amount of money realized from such sales, and also the amount of money realized from the sale of the said accourrements or any part thereof."

The Minister of Interior said the question should be addressed to the Attorney-General's Depart-

Representative Dole thought differently and the question was forwarded to the Minister ad-On motion of Rep. Brown reconsideration of the vote by which the bill, relating to withdrawal

of alcohol from the custom house, had passed was put and carried and bill laid for the present on the table. On motion of Rep. Aholo the bill relating to taxes, introduced by Representative Dole was placed on the order of the day next to the bills on

third reading for the next day. Representative Kaulukou desired to know if the members of the committee on the bill for the additional judges were ready to report.

The question caused some little discussion to

ensue, mainly relating to points of order, finally being settled by the order of the day being moved, thus bringing up the further consideration of the Appropriation Bill.

On motion the report of the Committee on pe-

titions from volunteer military companies was Representative Kaulukou amended the item, aid

to military companies \$26,254.34, in accordance with the recommendation of the committee, by inerting "aid to military and for the pu arms and accoutrements, \$46,254.34."

Representative Dole suspected the trouble was with the men and not with the guns. The guns were of modern pattern, and no doubt, if aimed right, they would fire right. He approved of a well drilled body of troops, and if a good drill master were placed over the troops to instruct them properly and enforce discipline, there might be some use in it.

Representative Thurston thought there was a good chance given now for the Ministers of econo-

my and reform, to show themselves. The Minister of the Interior said that he did not know what authority the member for Molokai had for referring to the present Ministry as a Min istry of reform and economy. The former Ministry had recommended certain reductions in the Appropriation Bill, but the new Ministers had not subscribed to any particular measure of reform or to any set of principles. For his own part, he did not feel in such an economical spirit as when the revised estimates were submitted. on economy had been somewhat modified by the votes of the Assembly. These votes seemed to indicate confidence in the sources of revenue and in the methods of administration. He would be glad if many items had been for less amounts. When the estimates were prepared, it was thought that \$25,000 was sufficient for the military com-panies; but now, a committee of the House had decided that the companies required more arms and accourrements; and the report of the committee was entitled to consideration.

Hon. Junies Kaze stated that the matter had been well explained to the committee. The men were being brought up to an excellent degree of ability and discipline but the arms furnished were of a mechanism that easily got out of order and there were now a number of the guns practically useless on that account. It had been deemed advisable to obtain a new outfit altogether rather them to obtain a supply of the kind now in use. On motion the ayes and mays were taken on the question of passing the bill as amended by Rep. Raulukou viz; at \$46,254.34 the vote in favor and

against being as follows: Arms—The Ministers (3) Kuihelani, Bush, Kaae, S. Parker, Hayselden, Keau, Lilikalani, Baker, Kaniia, Kaulukou, Pahia, Kaunamano, Nahale, Aholo, Nahinu, Kaukau-20.

On motion of the Minister of Foreign Affairs the vote was reconsidered and he then made amendment so that the item read and was passed,

Aid to rounteer companies and purchase of arms and ammunition for the military forces, \$46,254.24. Representative Thurston remarked on the increase of the amount saying that the diarrhoes of extravagance seemed to have struck the Minister

and he showed by the increase that he was unable to hold himself in. He regretted the peculiar de-bility displayed by the Minister. (Loughter.) At 11.55 the Assembly took recess until 1 p. m. AFTERNOON. The Assembly reconvened nearly half an hour

ment of the proposed amendment to Article to of the Constitution was reconsidered.

The proposed amendment which was placed on the order of the day reads as follows:

The Minister of Interior moved to insert, "Inter-island cable communication and electric light for Honolulu, as provided by loan, \$100,000." Representative Thurston had no objections to the item, only that it could not be made under the Loan Act, which provides that the loan is to be applied to the purposes specified and none other.

Gentlemen:—I have used your 15in. Steel Broakers for seres years, and your lide. Breakers for a year, and have been well picased with them. They are good strong Plows and for a fac sod better than any other plows I ever used, and I have used a good many since 1882. I have used the 16in, Steel Breaker for several weeks with only five mules, and plowed from one acre and a half to two acres a day. I used the same number of animals for the 15in, as for the 15in, Breakers. I plowed up a grove of sumach roots and lots of guavathls year and have broken but one fir coulter and a pair of handles. Every one who has used them on Hawaii has been stell pleased with them.
